

Kspace

Parent & Child Classes

Ages 3 months to 4 years

Kspace has an open and welcoming atmosphere. It is a really great place to 'roll up your sleeves' and have fun with your child! Our parent and child programmes are tailored for children from three months to four years old. As well as our focus on child-parent bonds, we also run parent workshops in a variety of subjects including Baby Massage and Emergency First Training.

Parent-participation is an essential ingredient! Our aim is to make your child's infant years a period you can reflect upon with satisfaction and happiness, and we have a diverse range of classes in which you can learn, laugh and share very special moments together.

Benefits of Our Classes

Children are born with a feel for vibration. Even tiny babies like to jump and bounce to their favourite tunes! Music and art are the perfect mediums for learning everything from phonics/arithmetic to exploring different cultures. We believe what we have to offer is unique, and we invite you to read more about us and come along and experience the Kspace magic!

Good Foundations

The syllabus used across our Parent/Mother & Child classes lays the foundation for work covered in our pre-school. Kspace programmes are carefully developed to reach the 'whole child' and to stimulate creative, intellectual, physical, emotional and sensory abilities. We encourage healthy social and emotional development and give children opportunities to practice their physical and mental skills from an early age.

The Kspace curriculum has five aspects.

1. Communication
2. Play
3. Music
4. Physical Motor Skills
5. Sensory Development.

With You in Mind - Six Days a Week

Kspace classes run on many Japanese National Holidays, throughout regular school holidays and Saturdays. We often celebrate festivals e.g. Easter & Pancake Day/May Day/Earth Day/Harvest Festival/Diwali/Halloween and Christmas! Across the year we also offer some fantastic events like picnics, park trips, school open-days, bazaars and charity fundraisers. With friendly teachers and a great atmosphere, we strive to provide a very international experience that's accessible to all parents and children, plus a little bit of the 'best of home' for expatriate families in Tokyo.

Community

Kspace is here for your entire family. We provide a range of classes for mothers, fathers, working parents, carers, extended family, and everyone involved in the loving care of your child. Parents and children build friendships under our roof and multi-age siblings can also join in select programmes too.

All enrolled members become part of an amazing V.I.P Members' Web where you can stay in touch with Kspace news and offers via photos, stunning videos, DVDs, song sheets, theme based handouts, and a special 'Teacher Feature'.

Parent & Baby Music/Movement/Sensory Class

A 45 min. theme-based, sensory experience for building visual, tactile, aural and motor skills: an excellent way to spend quality time bonding, meeting other parents, and giving your baby a springboard into other classes.

We offer live music from drums, guitar, group songs, props/textures, movement and more! Your baby will love assisted circle time with songs that have appealing noises and easy words. Our soft play gym encourages balance, leg strength and mobility. We also introduce a range of age appropriate props in activities that prompt reaching & grasping, and games that aid hand and eye/foot coordination.

Parent & Toddler Music / Movement / Sensory Class

A 45 min. class. Babies that can stand up confidently are ready for Kspace Toddler!

We focus on building your child's rapidly growing physical and mental needs. The setting is bright, full of fresh physical challenges, toys and props, to keep busy little hands happy! Kspace Toddler has a music foundation: themed songs and stories are brought to life with puppets, bubbles, parachute rides, obstacle courses and pure tactile fun. We also focus on formative language and concepts like sharing and cooperation.

Parent & Child Classes for Active Learners

Kspace Junior children are highly active and need constant stimulation. Courses offer new challenges and vocabulary. Your child will continue learning step-by-step whilst discovering a choice of thrilling adventures each week.

Little Tspace:

This 1 hour class is designed to help prepare your child for a kindergarten environment. The content-packed schedule draws inspiration from some of the activities in our preschool to give children a very little insight into the fun of a school day, but with mummy! Enjoy pre-phonics, language/vocabulary focus, art projects, early numeracy and gym games!

Stories and Sounds:

A 1 hour class with a music base but a real focus on the joy of books. Each week includes a story and themed crafts. Children love the great props and 'story sacks' that open to reveal all sorts of traditional-story treasures! We use music, drama and puppets to bring each story alive.

Saturday Family Circle Time

Loved by dads, working parents and families who want to enjoy together! 45 mins of music-based time with a lively sing-a-long session, gym fun, colourful props, puppets, our Kokomo character and general frivolity!

Parent Workshops

Emergency First Response Courses Etc.

Kspace International School runs a variety of parent-only courses. We regularly hold Emergency First Response Courses aimed at teaching a range of handy skills. All households can benefit from having someone at home who knows how to react on the spot! Other courses occasionally offered cover breastfeeding, active birth and sibling rivalry.
