What is EMERGENCY CARE TRAINING?

Emergency Care Training covers 8 compulsory skills with extra focus on CPR: Chest Compression combined with Rescue Breathing. The training will also cover all four skills in the First Aid course. This course is geared towards paediatric emergency care.

TRAINER:

Howard Harris, Safety and Evacuation Officer, Emergency First Response Training (20 years experience in the Royal Navy)

Course Investment :
6,000 yen per person

10,000 yen per partnered couple

All households can benefit from having someone at home who knows how to react on the spot. Knowledge can save a life!
