ESL Elementary is a three-hour English language course with many special ingredients – designed to improve English understanding, your child's enthusiasm and their success!

Content

Each month we enjoy a new exciting theme. Instead of just desk-based work, the theme takes children into a magical new world to learn practical new skills and vocabulary. Art projects, music, and role-play each session help children to remember vocabulary, and gradually discover how to use it in natural speech.

The course includes:

- Developmentally appropriate Phonics and language support exercises
- Themed role-plays
- Conversation and practical English, with our typical upbeat Kspace style and memorable teaching techniques
- Catchy, easy-to-remember songs
- Creative arts and craft
- Physical activity
- Teacher/student costumes and props
- Homework and homework support in each lesson
