

# August 🚱

Children adjust to the JLIP classroom routine, focussing on teamwork and individual jobs such as chores and leadership roles. They take pride in their jobs, and by the end of the year they are confident and skilled helpers (Otetsudai san)!

In August we study the theme 'Me & My Family' and have great fun getting to know about each other!

## September 🚱

We celebrate 'Respect for the Elderly Day' (Keiro no Hi), making presents for grandparents and venturing to the post office to send them off.

We visit the local retirement home for a shared story time.

The 'Full Moon Viewing Festival' (Otsukimi) brings fun and tasty traditional treats as well!

In recognition of the fall harvest, we simulate potato digging (Dimohori) in the classroom. We take a trip to the local vegetable market (yaoya-san) to see yummy potatoes and other veggies and fruit.

We learn about the art of flower arranging (ikebana), with each child choosing their own flowers at the market to use in their creations.

# November 🕞

One of the biggest highlights of the JLIP year is the '7-5-3 Festival' (Shichi-Go-San). We celebrate the children's wellness and happiness together in the beautiful autumn colours at Meiji shrine. We even ride on a pony and enjoy a picnic afterwards!

This short month is dedicated to the enjoyment of wintery fun! We bundle up and go out to the local park (building snowmen when the weather permits) and cook up tasty seasonal treats in the classroom. We create New Year's greeting cards (nengajyou) and send them off to our loved ones.

## January 🗑

JLIPers enjoy an array of traditional New Year's games and learn about the legends of the twelve Chinese zodiac animals (Jyunishi). We have a New Year's calligraphy lesson (Kakizome).

#### February 🕝

A lesson on Japanese mythical creatures like Kappa, Kaminari chan, and Tengu ushers in the children's all-time-favourite festival, Setsubun. We take a trip to buy roasted

Spring brings so much happiness to JLIP and it's time for another benchmark date in the Japanese calendar, 'Girl's Day' (Hinamatsuri). JLIP boys and girls have great fun wearing kimono/jimbe, face paint and head dresses for the occasion. Soon, the early cherry blossoms (sakura) arrive and the class enjoys nature trips to the park in warmer weather.

On 'Boys' Day' (Kodomo no Hi), the JLIPers enjoy dramatic role-play as ninjas, complete with cool outfits and cool moves for both boys and girls.

A highlight for this month is a special field trip for students to Narita Farm.

For studies, they sometimes enjoy learning about city & country living and on alternate years, they meet cherished anime characters like Totoro, and enjoy large-scale art projects e.g. constructing a 'cat bus' for Totoro, or magic brooms for Majo no Kiki - just like in the Ghibli films!

We enjoy the sun and take the opportunity to get outside as often as possible!
We learn traffic rules and words for all the vehicles in Japanese. JLIPers enjoy exploring their immediate neighbourhood, equipped with their own little IC cards, and a special visit to the local fire station!

The 'Star Festival' (Tanabata) brings together our end-of-year celebration with colour and cheer. — Clad in kimono/jimbe, the children enjoy placing their wishes on the tree and eating special noodles (nagashi soumen). Here we put our chopsticks (ohashi) skills to the test. Finally, we try our strength and coordination in watermelon bashing (suica-wari) for some sweet summer memories.

#### JLIP Calendar and Study Notes

Children can join us in JLIP from 2.5 years and up to 4 years old, so it is possible to enjoy the benefits of this wonderful bilingual course for a repeat year. Both the JLIP and its accompanying study curriculum, Butterfly, are designed with this longer study timeframe in mind. The curriculum is based on a 2-year cycle, with many wonderful theme units and appropriate highlights for teachers to follow.
