

Art

Saturday 4:15-5:15

Good afternoon everyone! We had a great time during the Elementary Specials Art class. To begin, I showed the girls a few items: tracing paper, card squares, and a variety of art mediums. I asked them what they thought we might be making today and soon figured out the answer was lamps! The group started with some experimentation. I allowed them to use any medium they liked, in order to choose what they liked. Once everyone was ready, we moved on to the real deal.

The group could use either three or four panels. They painted, drew, spotted, and deisgned some lovely images! Once completed, the girls were able to assemble the lamps without too much difficulty. We finished off by turning out the lights and had a chance to test them out. What lovely results we had! Great job today art team and I look forward to next time. Thank you!
